 Pull out shelf
 Height adjustable shelf
 Cut key (only available at time of order)
 Electronic Lock
 Electronic Lock & Key Lock

Phoenix 4630 Series Millennium Duplex

As part of our strategy to create the finest range of protection against fire and theft, we introduce the Phoenix 4630 Millennium Duplex Data Safe. This safe provides absolute protection for your data.

We know that fire strikes without warning!! But we also know there will be no warning of the theft or copying of confidential data or documentation. Overnight, a company's most expensive assets, research or development could fall into the hands of unscrupulous competitors, with potentially catastrophic results. That's why all 4630 series safes are fitted with an unpickable VDS class 1 keylock.

This safe also has the ability to exceed the world's most rigorous fire test, the VDMA 24991 standard. This demands that, in a fire, the safe can resist the crushing pressures of a building collapsing upon it, explosion in the form of superheated gases, falling from a height of 10 metres through burning floors and a raging fire of 1100°C for 2 hours. If that seems hard enough, the internal temperature of the safe will not exceed a comfortable 52°C to keep all your data secure and in tact.

A complete range of optional sliding drawer units or shelves ensures that every combination of media can be stored with maximum efficiency.

● **Dimensions stated as:**

- A External height x width x depth
- B Internal height x width x depth
- C Door swing
- D Weight
- E Capacity

● **Millennium Duplex 4631**

- A 905mm x 845mm x 860mm
- B 400mm x 500mm x 465mm
- C 870mm/60mm
- D 490 kg
- E 93 litres

● **Millennium Duplex 4632**

- A 1355mm x 845mm x 860mm
- B 830mm x 500mm x 465mm
- C 870mm/60mm
- D 740 kg
- E 195 litres

● **Millennium Duplex 4633**

- A 1905mm x 845mm x 860mm
- B 1400mm x 500mm x 465mm
